Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am a young, determined and goal driven individual who adores working with people. I am known all over as a people's person and I get along with people from all walks of life. I adapt extremely well to my environment and work well individually and in a team and am therefore very expendable... I see myself thriving so well in the medical/pharmaceutical industry because of my determination and people's skills...I would appreciate the opportunity to Enter this industry and be part of your dynamic team
